Professional Synopsis

Computer Science student with hands-on experience building full-stack web applications for personal and client projects. Skilled in React, Next.js, TypeScript, PostgreSQL, and NoSQL, with experience developing, deploying, and maintaining production-ready applications. Passionate about building scalable software and delivering practical solutions that create real value.

Education

Haigazian University - Bachelor of Science, Computer Science
Aug 2023- ongoing Lebanon

Skills

- **Soft Skills:** Strong communication & public speaking, Teamwork & collaboration.
- **Languages:** Arabic (Native), English (Fluent - Full Professional Proficiency)
- **Technical Skills:**
 - Languages: JavaScript, Python, Java, C++
 - Web & Backend: React, React Native, Tailwind, CSS, Node.js, Bootstrap, Next.js, TypeScript
 - Database: MongoDB (NoSQL), Supabase (PostgreSQL), SQL
 - Testing & Tools: Postman, Vite, Docker, Redis, Prisma ORM, Git, Vercel

Professional Experience

TEDMOB Full Stack Intern
July 2026 - Present, Lebanon

- Gained hands-on exposure to modern backend infrastructure including Docker, Redis, and Prisma ORM
- Worked with internal and external API integrations within an enterprise development workflow

Freelance Full-Stack Engineer
August 2022 - Present, Remote

- Designed and developed full-stack web applications across client and personal projects, managing the full cycle from architecture to deployment
- Built **BEIMUN LEB** (beimunleb.com), a conference platform using Next.js, TypeScript, and Supabase.
- Built **The Spiral Corner** (spiralcorner.com), a digital magazine platform on Next.js 19, TypeScript, and Supabase, featuring a custom in-browser PDF reader with content protection, Whop payment integration, per-user watermarking, and row-level database security
- Comfortable working across the full stack: authentication systems, secure file storage, REST/API integration, and production deployments

H-Educate Technical Associate
August 2023 - May 2024, Lebanon

- Managed multiple technical sectors, including QA testing, SQL database management, WordPress maintenance, and customer support
- Assisted teams with troubleshooting, website updates, and internal tools, ensuring seamless operations
- Gained exposure to affiliate marketing and e-commerce workflows, enhancing understanding of online business operations and digital systems

Extra-curricular

Philosophy Club | Haigazian University
August 2024 - May 2025 | Secretary of Students' Affairs Lebanon

- Represented the club in university activities and coordinated communication with members
- Assisted in organizing events and discussions for students interested in philosophy

August 2025 - Present | President Lebanon

- Lead the club, organizing events, workshops, and discussions for the student body
- Manage club operations and mentor new members to enhance engagement

Computer Science Community | CSC
August 2023 - Present, Active Member & Instructor Lebanon

- Instructed school students in foundational web development, including HTML, CSS, JavaScript, and basic project development
- Mentored learners and contributed to community initiatives promoting accessible technology education

HUMUN | Haigazian University Model United Nations
HUMUN'25
August 2024 - April 2025, Deputy USJ D2C Lebanon

- Managed participant affairs and facilitated communication between delegates and the organizing team
- Assisted in coordinating committee operations and ensuring smooth participation throughout the conference
- Supported the organization and logistics of conference sessions, ensuring adherence to procedural guidelines

HUMUN'26
August 2025 - Present, USJ D2C Lebanon

- Oversee delegate engagement and coordinate communication between participants and the organizing team
- Support the planning and execution of conference logistics to ensure smooth delegate participation
- Lead and supervise the Delegate Affairs team, ensuring effective coordination and support for conference delegates
